**Who are we?** We are the Holliston Music and Arts Parents Association. Our Mission is to support and advocate for music, theater, performing and fine arts programs for all K-12th grade students in the Holliston schools.

**Why are the ARTS important for YOUR CHILD?** Here are just a few reasons gleaned from scientific studies and articles published regarding arts education:

- ④ The arts touch every person, young and old.
- ④ Being creative is the best way for your child to learn, grow and express themselves.
- ④ Studies suggest that children who have a creative outlet are happier, and perform better in all phases of life, including academics.
- ④ Participating in musical and creative activities uses more brain capacity than any other activity.
- ④ For more information, check out our Facebook page [Holliston Music and Arts Parents Association!](#)
